Kanata Rising

News and Education from the frontlines of a New Nation

Kanata: a word from the Haudenosaunee Iroquois people, meaning "*Where the people gather as one around the council fire.*"

The Republic of Kanata is a sovereign federation of free, self-governing people based on the original Two Row Wampum Treaty between indigenous and settler nations that vowed to share the land and its wealth equally.

Called out from a global tyranny that is waging war against the earth and its people, we return to the Source to recover the Natural Law of Equality, Liberty, and Harmony. Guided by that Supreme Law, we reclaim the nation through our own Assemblies, Courts, and Militias, according to the free will of the people. Kanata is rising as that new nation, like the first buds of springtime.

This is the Voice of the Republic of Kanata and of its people.

This is Kanata Rising.
