6. Century Clearing
7. Light Infusion Healing Chamber Whole Life Unlimited (request twin flame unification)

Some of the above were prerequisites and some Ron did with them. The century is the only one not online that he did in person. CLS recommends doing a lot of the generational clearings that go along with the emotional body whole life as a way to achieve what Ron was doing with the century. During the century clearing he would tell people how long they have been here. I figured if most have been here for 50,000 yrs that it makes more sense to do a combination of emotional whole life with generations and the alien parallel life time removal as it goes further back into centuries.

Imagine you love humanity so much you risk your very existence to incarnate on a prison planet run by psychopathic satanic pedophiles and horrifically diabolical tyrannical power hungry barbarians. You know full well you will be tortured, raped, abused, shunned, lied about, tricked, persecuted and ridiculed from beginning to end by dark forces doing all they can to deflect, destroy and halt your rescue mission, as well as capture, control and punish you for being here.

You strive with all your heart and spirit to present solid truth to help people make better choices, avoid pitfalls and unwanted or unfortunate situations, practices, rituals and associations that would cause harm or leave humanity behind during an ascension.

You work tirelessly with very little sleep or rest, excited about new creative ways to make a difference; all the while never asking for anything in return, always giving more than you have to give and doing it all for free.

The dark works overtime to take you out, make life as difficult as possible, sabotage every sacred and peaceful circumstance you create and hold dear. They strive to compromise your Spirit, your relationships, your friends and family, your body, your communications, your character and reputation, your sleep, your home, your environment, your food, your air, your health and prosperity. They alter your presentations, steal your material, clone you, misrepresent and distort what you've said and turn the world against you with propaganda. They plant dangerous *people*, side track and cause harm, questioning everything you do and say, searching for and inventing fault to post across the airwaves, and the masses believe their captors. You continue on in spite of these challenges.

Medal of Honor citation [\[edit \]](#)

Bush's citation reads:

The [President of the United States](#) in the name of [The Congress](#) takes pleasure in presenting the MEDAL OF HONOR to

HOSPITAL APPRENTICE FIRST CLASS ROBERT EUGENE BUSH
UNITED STATES NAVY RESERVE

for service as set forth in the following

CITATION:

For conspicuous gallantry and intrepidity at the risk of his life above and beyond the call of duty while serving as Medical Corpsman with a rifle company, in action against enemy Japanese forces on Okinawa Jima, Ryukyu Islands, 2 May 1945. Fearlessly braving the fury of artillery, mortar, and machinegun fire from strongly entrenched hostile positions, Bush constantly and unhesitatingly moved from one casualty to another to attend the wounded falling under the enemy's murderous barrages. As the attack passed over a ridge top, Bush was advancing to administer blood plasma to a marine officer lying wounded on the skyline when the Japanese launched a savage counterattack. In this perilously exposed position, he resolutely maintained the flow of life-giving plasma. With the bottle held high in one hand, Bush drew his pistol with the other and fired into the enemy's ranks until his ammunition was expended. Quickly seizing a discarded carbine, he trained his fire on the Japanese charging pointblank over the hill, accounting for six of the enemy despite his own serious wounds and the loss of one eye suffered during his desperate battle in defense of the helpless man. With the hostile force finally routed, he calmly disregarded his own critical condition to complete his mission, valiantly refusing medical treatment for himself until his officer patient had been evacuated, and collapsing only after attempting to walk to the battle aid station. His daring initiative, great personal valor, and heroic spirit of self-sacrifice in service of others reflect great credit upon Bush and enhance the finest traditions of the U.S. Naval Service.^[8]
