

Freedom Lovers Enlistment Opportunity

The United States of America Constitutional Forefathers, using time-travel technologies, are spearheading a multinational strike force to prevent the annihilation of this planet.

All branches of our Military from past war timelines have been transported into the future to 2100 and beyond to receive training in Alien Defense Warfare. These Elite Special Time Travel Forces were brought back to this time period to engage the Aliens. These battles are taking place above and below ground, in outer space and within multiple timelines unknown to the general populous.

This Special Event Lecture is about YOU enlisting with the United States of America Special Elite Forces. Once involved in this momentous project you will be bi-located to begin your work while simultaneously carrying on your regular daily life.

All Welcome. Those who have enlisted have found the experience rewarding with no disruption of their daily life.
